Service, we offer you —**

- 1 ECONOMY**
- 2 CLEANLINESS**
- 3 SANITATION**

**Elimination of Rats,
Scavengers and Fire
Hazards**

●

NEW ORLEANS DISPOSAL SERVICE

Owned and Operated by
New Orleans Transfer Co., Inc.

Union Passenger Terminal Bldg.

RAYmond 0716

New Orleans 13, La.

A SERVICE FOR CLEANLINESS, SANITATION

THE PHOTOGRAPHS ABOVE AND BELOW serve as typical examples of scenes, wherever trash and refuse are collected, before and after a Dempster-Dumpster Container is installed. Nothing is exaggerated in the picture above. Note that the lids are actually on a few of the cans. Such unsightly, unsanitary and costly methods of trash collection like this are entirely unnecessary, when a Dempster-Dumpster Container is in service as shown below.

TODAY, THE MODERN METHOD of adequate, sanitary and low cost rubbish collection is the Dempster-Dumpster System with its large steel specially designed and built Dempster-Dumpster Detachable Containers.

**ELIMINATE RATS AND FLIES
ELIMINATE WINDS AND DODGERS
ELIMINATE FIRE HAZARDS OF
REPLACEMENT OF INADEQUATE**

YOU BUY NO EQUIPMENT, hire no labor, make no investment whatsoever! For a reasonable service charge, we assume all the responsibility and take complete charge of your trash and rubbish collection.

HERE'S WHAT WE DO FOR YOU. WE place at your disposal a large all-steel completely enclosed Dempster-Dumpster Container, which has self-latching doors. The capacity of this container is greater than the average dump truck body. So you can imagine the enormous quantity of materials it holds. It replaces all the unsightly, unsanitary and inadequate trash cans, drums, barrels, boxes, refuse houses etc., yet it requires far less space.

On pre-arranged schedule our truck-mounted Dempster-Dumpster picks up the loaded

BEFORE

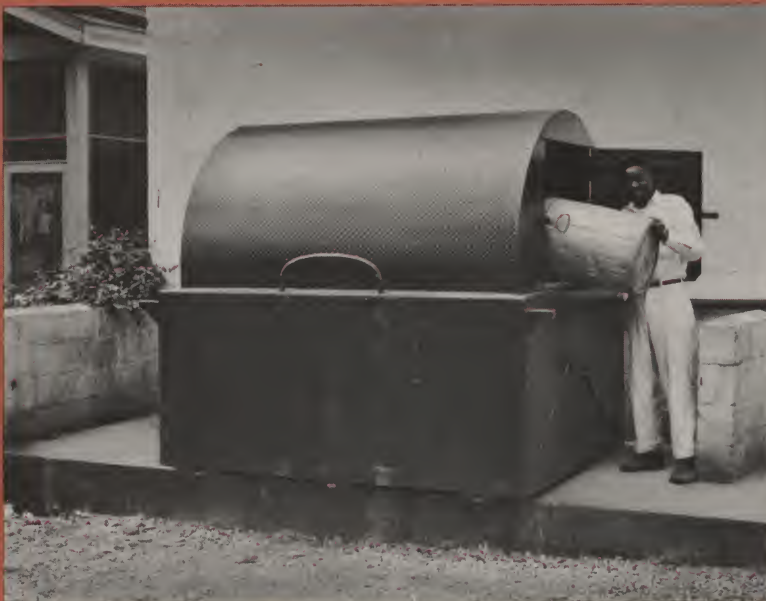

Above we point out another before and after example of what our service can do for you. Note that this case, too is not exaggerated. In fact, this grocer had gone to the added expense of building a concrete platform to keep

N AND ECONOMY

**CONTAMINATING YOUR REFUSE . . .
PEST ANIMALS SCATTERING IT . . .
OPEN REFUSE . . . ELIMINATE COSTLY
CONVENTIONAL CANS!**

container, hauls it to the dump and empties it. This container provides you with a sanitary and convenient refuse bin in which to deposit any size or shape trash, rubbish or refuse immediately as it is generated. No rats or flies can contaminate the refuse inside the closed container! Wind or domestic animals cannot scatter it! Fire hazards of open refuse are completely eliminated! You no longer have to buy and replace conventional cans!

Look over this folder carefully. Note the various types of containers to meet every requirement. Then let us give you the full details. Give our efficient, sanitary and low cost refuse collection service a trial now. We can assure you that once you see the advantages and know the economies of our service, you will never consider returning to your present method or to any other method under any circumstances.

AFTER

cans and crates full of garbage off the ground. He had done all he could within reason to make the most sanitary condition possible with conventional cans. Look at the difference after one 10 cu. yd. Apartment Type Container replaced all the cans, crates, barrels, etc.

APARTMENT TYPE CONTAINER

Here is another container available for your use. This particular Apartment Type, shown at right, was supplied with Sump Bottom construction, also available on the Universal. Where moist and wet rubbish is a problem, the Sump Bottom, having a liquid capacity up to 100 gallons, retains the drainage until contents are dumped.

1. In serving your container, we PICK IT UP

UNIVERSAL CONTAINER

This container is widely used. It is shown at left alongside platform. Materials may be dumped into container at ground level through one of the end doors or from platform through one of the top lids (as shown). Capacity of this container is several times greater than the capacity of an average dump truck body.

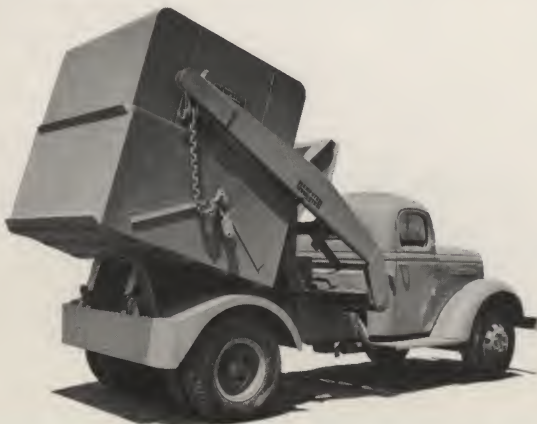

TILT TYPE CONTAINER

This container, shown at right, is sometimes preferred for handling extremely wet materials and when materials such as crates and boxes are not part of the normal accumulation. Container is, of course, water tight and has two self-balancing hinged lids in top.

MULTI-KARRY CONTAINER

The Dempster-Dumpster Multi-Karry Container, shown below, comprises a master 6 cu. yd. container with three 2 cu. yd. insert containers on casters. Each of the 2 cu. yd. containers may be rolled to a trash accumulation point. When loaded we pick them up in the master container and take all three to the dump for discharge by our truck-mounted Dempster-Dumpster.

2. Hydraulically place it
in position to HAUL IT

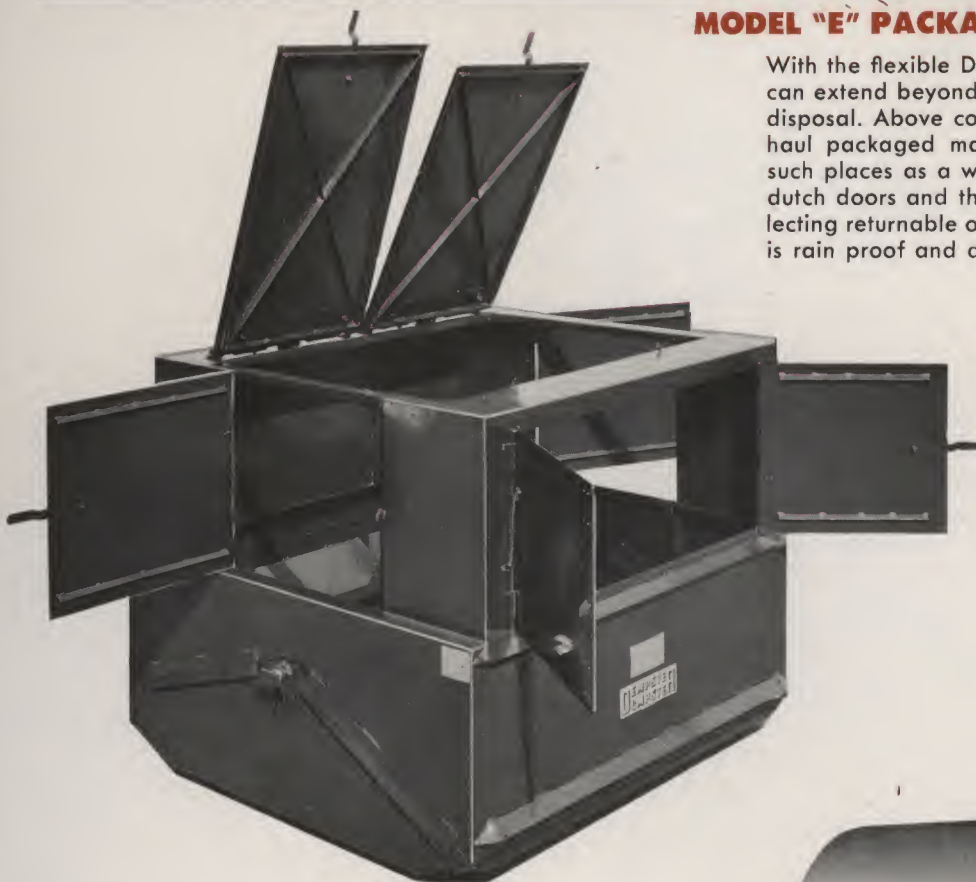

3. EMPTY IT at destination
and return container
to you.

ADDITIONAL CONTAINERS AVAILABLE

MODEL "E" PACKAGE HANDLING CONTAINER

With the flexible Dempster-Dumpster System, our services can extend beyond that of waste materials collection and disposal. Above container, for example, may be used to haul packaged materials and/or products to and from such places as a warehouse. Close the bottom section of dutch doors and the container may also be used for collecting returnable or salvable material. Note this container is rain proof and doors may be locked against pilferage.

ED UNIVERSAL

Here is our ED Universal Type Container. Note it has Sump Bottom for handling wet or moist rubbish, self-latching double doors in one side, a self-latching door in each end and two counter-balanced lids in top. At any position door openings are convenient for loading. Capacity of this particular container shown is 10 cu. yds. The height of the ED Universal is always lower than standard universals of the same capacity.

CONTAINERS ARE AVAILABLE WITH CASTERS

Any Dempster-Dumpster Container may be provided with casters, permitting it to be placed inside building, in close-quarters in alley, etc. Apartment Type with casters, shown at right, is an example.

HERE'S WHAT USERS THINK OF THE DEMPSTER-DUMPSTER SYSTEM . . .

A CHAIN FOOD STORE—

"The writer has followed up the collections and the service of these containers with our store personnel very closely and will say that this equipment has come up to our expectations 100%."

A DAIRY—

"The service that you are giving us in handling this is excellent and which we appreciate very much. I would not think of going back to the old system."

A DRUG STORE—

"Our alley is clean at all times. We have no rodent problems. The sanitation problem has been overcome from the use of the Dempster-Dumpster instead of the old system of garbage cans which were always being knocked over and contents spilled over in the alley. I would hate to return to the old system of refuse collection after this modern method."

A DRIVE-IN RESTAURANT—

"We are very well pleased with our Dempster-Dumpster. It does away with 8 or 10 large cans which were never enough on weekends. The service is good. It is the answer to proper garbage collection and storage in our opinion."

A HOTEL—

"I want to say how well pleased we are with this service as it has met a great need and we feel that you are doing an excellent job. We would not think of returning to the old system, as it would be like going back to the horse and buggy days."

A MEAT PACKER—

"Your one container takes anything and everything several garbage cans wouldn't!"

A CONSTRUCTION COMPANY—

"... the Dempster-Dumpster does a great deal to control rats, dogs and cats ... we no longer have the old trouble of trash cans being stolen or broken. . ."

AN EQUIPMENT DEALER—

"Let us express our full satisfaction for the very splendid service which you are rendering in this type of refuse collection."

A RESTAURANT—

"It is the first container we have found to be Rat Proof!"

A CAFETERIA—

"It would be impossible to go back to the old way of trash cans after having everything kept so clean and sanitary."

A MOTOR COMPANY—

"One thing I would like to say is anyone who has any waste material to be disposed of, this is the cheapest way I know and I would not hesitate to praise this Dempster-Dumpster to the highest."

A MEDICAL COLLEGE—

"This Dempster-Dumpster has taken care of our refuse and cut our cost of doing so to a minimum."

A BAKING COMPANY—

"My neighbors and property owners adjoining the back alley had acted kinda hostile, for understandable reasons, because trash and garbage would accumulate. They now assure me over and over again how pleased they are about the improvement."

ANOTHER HOTEL—

"Without a doubt this is one of the finest solutions we have experienced in handling the problem of refuse collection and disposal. In fact I do not see how any institution of any size can get along without this service."

A THEATRE—

"It has solved a problem which has for a long time been a serious one with us—that of accumulating the trash from the theatre and the building in such a way as not to have it scattered around, creating an unsightly and unsanitary condition."

A LAUNDRY—

"We have found it to be more sanitary, more convenient and very economical."

ANOTHER HOSPITAL—

"Saved the hospital buying approximately 8 large trash cans per year."

A REAL ESTATE AGENCY OPERATING APARTMENT BUILDINGS—

"The premises are much cleaner and free from the rat problem, and this method is superior in all respects to the old type of collection."

AN APARTMENT OWNER—

"Having all refuse in one big container eliminates rats and fire hazard."

ANOTHER HOTEL—

"We are delighted with the Dempster-Dumpster Container and would not return to the old method of refuse collection under any circumstances. For the first time since I have been manager of this hotel, I am proud of that portion of it where trash is collected."

A BUS TERMINAL—

"It has been almost a year now that we have used this service, and right here let me take this opportunity to thank you for acquainting us with this equipment and your pick-up service. Without a doubt it is one of the finest services I know of anywhere."

In cities all over the United States hundreds of satisfied users willingly testify as to the efficiency and economy of this remarkable, efficient system. Above are excerpts from just a few of the hundreds of letters, which should give you an idea of how users like this service that we offer you here. Name of firm and complete letter will be gladly furnished on request.
